EXPERIENCE

Java Full Stack Developer Intern | EduSkills (Remote)

June 2026 – Present

- Developing full-stack web applications using **Java** and modern web technologies.
- Building scalable backend logic, database integrations, and responsive user interfaces for real-world business requirements.
- Applying **software engineering principles**, version control workflows, and collaborative development practices.
- Contributing to maintainable and scalable applications through modular architecture and clean coding standards.

PROJECTS

ExamVault – Secure Question Paper Management System | [Demo](#) [Github](#)

Apr. 2026 – May 2026

- Developed a centralized academic resource platform providing organized access to **100+ previous-year question papers** across multiple subjects and semesters.
- Implemented structured categorization and search functionality, reducing the time required to locate study materials by **70%**.
- Designed a responsive user experience enabling seamless access across desktop and mobile devices.
- Addressed a common student challenge of scattered academic resources through a single, easily accessible platform.

WorkPulse – Intelligent Employee Operations Platform | [Demo](#) | [Github](#)

May 2026 – July 2026

- Engineered a centralized employee management platform** addressing real-world workforce tracking and administrative management challenges.
- Designed intuitive and responsive interfaces to simplify employee record management and improve operational efficiency.
- Implemented modular architecture supporting scalable employee record management** and future feature expansion.
- Applied clean code principles and reusable component design to improve maintainability and long-term system reliability.

EDUCATION

Dnyanshree Institute of Engineering and Technology, Satara

Oct. 2024 – Oct. 2028

Bachelor of Technology (B.Tech) in Computer Science & Engineering

- CGPA:** 7.58/10
- CourseWork:** **Data Structures & Algorithms**, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Java Programming

SKILLS

Programming Languages: Java, JavaScript, HTML5, CSS3

Frameworks & Libraries: Node.js, Express.js

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Netlify

Core Concepts: **Data Structures & Algorithms (DSA)**, Object-Oriented Programming (OOP), REST APIs, Full-Stack Development, Problem Solving, Software Development

ACHIEVEMENTS

- Ranked 131/37,985** in Weekly Contest 507.
- Project Kernel**, Nexus Spring of Code 2026.
- Campus Ambassador**, GirlScript Summer of Code 2026.
