EXPERIENCE

Java Full Stack Developer Intern | EduSkills (Remote)

June 2026 – Present

- Developing Java-based full-stack applications using modern web technologies as part of the EduSkills internship.
- Implementing **RESTful APIs**, database integration, and responsive user interfaces for business scenarios.
- Collaborating using **Git** version control, following modular and maintainable software engineering practices.
- Strengthening practical knowledge of Java backend development, systemic debugging, and architecture design.

PROJECTS

ExamVault – Secure Question Paper Management System | [Demo](#) | [GitHub](#)

Apr. 2026 – May 2026

- Developed a centralized academic resource platform using **HTML5, CSS3, JavaScript (ES6)**, Fetch API, and Local Storage to organize 200+ papers.
- Implemented structured categorization, search functionality, and dynamic DOM manipulation, reducing resource discovery time by **70%**.
- Built a fully responsive user interface utilizing CSS Flexbox, Grid layout engines, and media queries for cross-device compatibility.
- Applied modular code structure and version control with Git to ensure smooth deployment and hosting architecture on Netlify.

WorkPulse – Intelligent Employee Operations Platform | [Demo](#) | [GitHub](#)

May 2026 – July 2026

- Engineered a centralized employee management dashboard using **JavaScript (ES6)** to solve real-world workplace tracking challenges.
- Built interactive modules with advanced event handling, client-side data validation, and responsive layouts to scale record administration.
- Integrated dynamic content rendering pipelines with JSON storage architectures and automated notifications through EmailJS.
- Optimized web performance layouts, applied targeted UI/UX refinements, and executed version tracking workflows via GitHub.

SKILLS

Programming Languages: Java, JavaScript (ES6), HTML5, CSS3

Frameworks & Libraries: Node.js, Express.js

Web Technologies: DOM Manipulation, Fetch API, REST APIs, Responsive Web Design, Event Handling

Databases: MongoDB, MySQL

Developer Tools: Git, GitHub, Visual Studio Code, Netlify

Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Software Engineering, Full-Stack Development, Problem Solving, Cross-Browser Compatibility, Debugging, Modular Code Organization

EDUCATION

Dnyanshree Institute of Engineering and Technology, Satara

Oct. 2024 – Oct. 2028

Bachelor of Technology (B.Tech) in Computer Science & Engineering

- CGPA:** 7.28/10
- Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Java Programming

ACHIEVEMENTS

- Ranked 113/37,985** in LeetCode Weekly Contest 507.
- 1700+** peak contest rating achieved on LeetCode platform.
- Contributor**, GirlScript Summer of Code 2026 & Elite Coders Summer of Code 2026 open-source programs.
